

RICHARD HADDLESEY

WEB DEVELOPER – RICHARD.HADDLESY@SKY.COM

PROFILE

I am a passionate and skilled full-stack developer with over a year's commercial experience in delivering mobile and web Apps using the latest JavaScript libraries.

SKILLS

Proficient in: JavaScript = Svelte, React, React Native (to build on both Android and iOS mobile devices using SDKs), HTML, CSS, JSON, SCSS, XML, Restful APIs, Axios, Redux, Node, Express.

Knowledgeable in: PHP, SQL, MySQL, Type Script, Laravel, Python, Vue.

EXPERIENCE

FULL-STACK DEVELOPER • VENNTRO • 08/2019 TO PRESENT

Developing a robust CRM based web app using HTML, CSS, JavaScript – Svelte.JS coupled with PHP Laravel and SQL. This role was 100% remote using Slack, Github and Jirra to share and communicate code in an Agile environment.

FULL-STACK DEVELOPER • UNTIED.IO • 07/2019 TO 07/2020

using React to build the web App, React Native to build a cross-platform mobile App, PHP and SQL to create the back-end with API calls. We used the HMRC API to create a tax app for the phone and web. This is a permanent role with Untied who are an award winning FinTech Start up working directly with the CTO in an Agile environment with a 50/50 office/WFH split utilising Git, Zoom, Jira, Slack, Teams, Notion etc.

FULL-STACK DEVELOPER • GENERIC • 05/2019 – 06/2019

using React to break the generic mould and create interactive and responsive web sites as a freelance developer.

FULL-STACK DEVELOPER • RLA GROUP • 03/2019 – 05/2019

A role specialising in ReactJS and Laravel PHP to build a dynamic user interface to fetch marketing data for the Volkswagen Group. The contract was to build an easy to use UI to track and display various data relating to sales and servicing communications. I harnessed the power of React JS to build the front-end and Laravel PHP with SQL on the back-end. An Agile environment utilising GitBucket, SourceTree, Jira, Slack etc.

WEB DEVELOPMENT TUTOR • THE TRAINING ROOM • 03/2017 – 02/2019

Lead Tutor of the IT service Line specialising in Web Development. Whilst there, I built and designed a React and React Native developer course to compliment and extend the web developer course I tutored. Languages taught included React, React-Native, XML, HTML, CSS, JavaScript, AJAX, PHP, MySQL, JSX, ES6 and above, Python.

RH

RICHARD HADDLESEY

COMPUTER SCIENCE TEACHER • 2010 – 2017

Teaching Computing at various schools from GCSE, A Level and Degree level. Using mostly Python, HTML, CSS, MySQL and algorithms to teach computational thinking and problem solving.

EDUCATION

PH.D • 10/2010 • UNIVERSITIES OF SOUTHAMPTON AND WINCHESTER

Fully funded research student in Computer Applications in Archaeology – using Digital technologies (GIS, XML, XHTML, HTML, CSS, JavaScript, SQL) and Computers to collate, manipulate, interrogate, and disseminate data through visual and geographic databases alongside 3D modelling (3D Max, Maya, ArcGIS, AutoCAD).

MSC • 08/2005 • UNIVERSITY OF SOUTHAMPTON

MSc Archaeological Computing (virtual pasts). Using XML, XHTML, HTML, CSS, JavaScript, 3D Studio Max, Maya, AutoCAD and ArcGIS to record and recreate the past.

BSC • 07/2004 • BOURNEMOUTH UNIVERSITY

BSc Heritage Conservation. Learning how to manage and preserve our built heritage using modern technologies – Databases, GIS, and GeoPhysics.

BACKGROUND

Before moving into Web Development I taught ICT and Computer Science at Secondary Schools and University – mainly teaching HTML, CSS, JavaScript and lots of Python.

I am extremely passionate about the use of developing technologies to enrich our lives, both at home and in the work place as I use computers to DJ and game in my downtime.

I am very well-travelled and have three wonderful sons.
